# Living Well

The Living Well service aims to support you and those close to you to manage the challenges of living with serious, long term and life-limiting conditions. This is achieved by working with you both individually and in a group setting.

As well as the many groups and sessions detailed in this leaflet, you may also be interested in a course of Complementary Therapy, a referral to the Artist-in-Residence or having a Community Companion volunteer visit you at home on a regular basis.

**We look forward to meeting you.**
